HISPAMERFLEX: September 30th – Comexi Group headquarters - Girona

Jornada de Innovación

The innovation event HISPAMERFLEX organized by COMEXI GROUP, DUPONT, SUN CHEMICAL and ESKOARTWORK will be held on September 30th at the Comexi Group headquarters in Girona.

The theme of the conference, “**Growing Flexo: New Opportunities**” aims to reflect the fact that flexographic printing is growing worldwide. The latest data show growth superior to that of gravure and offset printing. This is a consequence of the technological developments that flexographic printing has made in the last decade, adapting to the new market requirements, both quality and performance.

During this innovation event, the latest developments in flexographic printing will be showcased. The new **eCOMEXI®** flexo printing machine with the Sun Chemical **WetFlex®** ink system, the high printing quality attained by the use of **HD Flexo®** technology from **EskoArtwork®** and the most advanced technology of photolymer plates & sleeves from **Dupont Cyrel®**. Comexi Group will also present its new flexo press based on the **FLEXOEfficiency®** concept, a state-of-the-art technology for high quality printing and short runs; to allow attendees to see the technology in action first-Hand, as well as the latest news on slitting and rewinding of the commercial brand PROSLIT.

The organization of HISPAMERFLEX, leading companies in this sector, consider essential the innovation and products adaption in order to enhance their added value.

You will have the opportunity to see first-hand the direction to follow on September 30th.

Comexi Group, sponsor of the FPA Fall Executive Conference – September 30th –Chicago, USA

The upcoming 2010 FPA Fall Executive Conference will provide content-rich educational conferences and meetings with quality speakers and great networking opportunities that benefit FPA members and the flexible packaging industry. The Conference will include a review of FPA research results on **Corporate Sustainability Metrics for Flexible Packaging Manufacturers** - a guidance on preparing corporate sustainability reports, which examines existing external sustainability metrics and expectations of stakeholders; and **End-of-life options: Waste as Feedstock**, which identifies the most promising technologies for increasing the beneficial use of flexible packaging “waste” generated after its intended use.
