Wentus Kunststoff orders a ten-colour FI from Comexi Group

Wentus Kunststoff GmbH, well-known and internationally recognised flexible packaging specialist, will install a flexo printing press FI 2510 CNC GL in the next months in Höxter, Germany. The ten-colour machine convinced the company because of its high speed production and the excellent test results obtained. Wentus will print jobs with long runs and high speed to increase production capacity. They are also looking for a quick change-over time. The FI 2510 features a maximum production speed of 600 m/min (1969 ft/min). Maximum print length is 850 mm (33”).

Founded in 1965, this company is renowned today for its outstanding culture of innovation and expertise, reliability and the consistent world-class quality of its product range. Since 1996, Wentus has been part of the international specialist packaging group, Clondalkin Group which has already one Comexi flexo printing press. The Group is active across Europe and North America with more than 40 locations in 10 countries. The Group's businesses produce and supply specialist flexible packaging laminate materials in multiple applications supplying the food and beverage, pharmaceutical and healthcare, fast moving consumer goods, industrial, services, and agricultural and horticultural markets.
